### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Enyard on July 6-7, 2006. The application has been amended as follows:

In claim 1, line 3, "two power lines" has been changed to -- four preexisting power lines --; and lines 7-8, "for transmission via the two power lines" has been changed to -- that are transmitted through only two of said four power lines to the way side equipment --.

Claims 6-7 and 16-23 have been cancelled.

In the drawing, Figure 1 is to be labeled as "Prior Art" by the applicant. Formal drawing is now required.

3. As discussed with Mr. Enyard on July 6-7, 2006, the instant claimed invention, i.e. claim 1, is needed to be further defined as set forth above so as avoid a possible ground of rejection that could be made on the basis of Wolf (US 6,655,640). The examiner further indicated that the subject matters of claims 6-7 and 16-23 were in conflict with the limitation of claim 1, and requested the cancellation of claims 6-7 and 16-23. In response, Mr. Enyard accepted the examiner's proposed amendments as set forth above.
